

Please deny Bellsouth's petition to stop regulating broadband service. I get my Internet connectivity and hosting from a small independent ISP whose service, quality and responsiveness is far better than that that I've received from any of the Bell monopolies.

In addition, web sites such as broadbandreports.com are the de-facto sources for consumers to evaluate the quality of broadband offerings. If you were to view that site you would quickly come to the conclusion that consumers have much greater overall satisfaction with independent ISP's.

Please don't force my wonderful ISP to go the way of the Dodo bird!
